Professional Experience

Feb, 2021 – ongoing

Data Scientist *Fossil Fuel Non-Proliferation Initiative (FFNPT), UK*

Data Science for the FFNPT Initiative, a global NGO empowering policy advisors and researchers to facilitate the global transition to clean energy. Programmed and deployed an interactive online app, The Fossil-Fuel Policy Tracker. The app uses shiny, web-scraping and an NLP pipeline to automatically identify, filter, and visualize relevant policies globally. A video describing the app can be found here

Oct, 2021 – ongoing

Senior Researcher *University of Geneva, Switzerland*

At the University of Geneva, I experimentally investigate evidenced-based climate change communication strategies to facilitate increased pro-environmental behaviors. To this end, I am developing and experimentally evaluating different behavioral intervention methods aimed at sustainable behavior change. My work is undertaken cooperatively with high-quality video content creators.

Oct, 2019 – Sep, 2021

Postdoctoral Research Associate *University of Cambridge, UK*

At the University of Cambridge, I conducted research using Machine learning on climate change perceptions and behaviors (N > 100000). Moreover, I worked on a project developing and evaluating online misinformation techniques in social media published in Big Data & Society.

Aug, 2016 – Jul, 2018

Postdoctoral Fellow *Harvard University, USA*

At Harvard University, I conducted social psychological experiments on the effects of climate change, automation, and immigration on inter-group relations and environmental behavior.

Education

Postgraduate Studies

Feb, 2021 – Apr, 2021

Data Science Fellowship *Faculty AI, UK*

Highly competitive intensive course and internship in Data Science: Europe's leading route to hiring elite technical data science talent.

SQL | Supervised learning | Unsupervised learning | Reinforcement learning | NoSQL | Graph databases | Machine Learning | Distributed computing | APIs | Software engineering | Neural networks | Statistics | Probability | Bayes | AI safety | GDPR | Project management | Effective business communication

2014 – 2017

Ph.D. in Political Science *Humboldt University of Berlin, Germany*

Continued Education

April 2021

Data Science Professional *HarvardX, USA*

This comprehensive online course covers concepts such as inference, probability, regression, and machine learning and helps develop an essential skill set that includes R programming, data wrangling with dplyr, data visualization with ggplot2, file organization with Unix/Linux, version control with git and GitHub, and reproducible document preparation with RStudio. Certificate

July 2020

Machine Learning *HarvardX, USA*

This comprehensive online course covers concepts within machine learning and includes building recommendation and classification systems and a full-stack capstone project. Certificate

May 2016

Measuring causal effects in social sciences *University of Copenhagen, Denmark*

This comprehensive online course covers concepts like Randomized Controlled Trials, difference-in-difference and various other research designs allowing for causal inference. Certificate
